

A Descriptive Title of the Investigation

Your Name(s), alphabetically by surname

09.04.20XX

This is a suggested template for writing out the CER of an experiment.

INTRODUCTION

Provide a brief description of the investigation. What were you trying to achieve? What is the research question you are trying to answer?

CLAIM

What is the answer to your research question? It should be more than a yes or no.

EVIDENCE

What are the specific observations and/or data from the investigation that supports your claim? Include a data table and/or graph only if relevant.

TABLE 1

Label data tables and format them to clearly show what was collected during the experiment.

LOREM IPSUM	DOLOR SIT	
Lorem ipsum		
Lorem ipsum		

REASONING

How does evidence support your claim? What is the scientific principle that explains why evidence is linked to the claim?

REFERENCES

Include a list of references if necessary. Use a consistent style, (i.e. APA, MLA, ACS, etc.)

1. Lorem ipsum dolor sit amet
2. Consectetur adipiscing elit
3. Sed diam nonummy nibh euismod

ACKNOWLEDGEMENTS

List each of your names alphabetically by surname and give a brief description of your primary role in producing the paper. It is assumed that all of you were involved in editing the paper. For example:

Anna Dorin prepared the data tables and graphs.

Joe Random wrote the first draft of the reasoning section.

Steve Yang wrote the evidence section.

If you are asked to print a copy of the paper, format font size and margins as best you can to fit your work on one sheet of paper, double-sided.
